APRIL 21. - - - 1886.

We have no particular interest in the Greenfield postoffice and no antagonism for the gentleman recently appointed, but we have heard enough extemporancous thunder from the northeast to believe that the Gazette is very seriously deceived by the report of universal satisfaction in that direction.

The Legislature passed an act, April 8th, making it imperative for Assessors and Auditors to be correct in the valuation of property, by prescribing a fine of \$200, for all who fail to do so. It has been customary for Assessors in Highland county and elsewhere, to agree upon some basis for the valuation of property and this is all wrong. The law specifies that property shall be considered as worth what it would sell for just where it is, and one tract of land should furnish no rule for the valuation of another. Assessors are sworn to do their duties irrespective of neighborhood, customs and predecessor's practices and their attempts to please property-holders or white-wash their reports or maintain a standard of valuation all over the county, have resulted in the unfortunate condition of affairs, to which Goyernor Foraker has called attention.

If the editor of the Gazette imagines he is publishing a perfect newspaper and giving universal satisfaction he may have some of the conceit taken out of him by carefully reading our, article again. We are aware of his habit of supposing that he is the embodiment of perfection. We have mentioned this illusion on his part in the past, and will probably have occasion to refer to it in the future. He is eternally quibbling about typographical errors and trying to be funny about it. Knowing our faults in that respect, in common with all other papers, the Gazette included, we have refrained from showing wherein the latter paper was not a consummate model of typography. Then he accuses us of complaining about our contemporaries. We suppose that means that we complain of the Gazette. Ah, there! That expression is in itself a complaint about the News-Herald, and is preceded and followed by complaints about us. Behold how the complainer complains derful writer. That expression is in itself a complaint about complaints! As for lying about our circulation, that would be absurd. del. If we were it would not be hard to prove it. As it is, it is easy to prove that we are not. If Judge Dittey will walk down to our obliging Democratic Postbe able to ascertain the circulation of be able to ascertain the circulation of George W. #### Labor vs. Capital.

Master Workman Powderly has writthe Knights. The last move in appeal ing to the whole order is about as surbegun for the alleged reason that an employe of another road had been distroi over the other road, and the reason assigned makes the strikers appear simply silly. Now they threaten penalties if the company does not agree to arbitrate and re-employ all the strikers. Arbitrate what? The only difficulty seems to be that the employes wanted to knock off work and destroy property ship as a compositor in his boyhood, and ac-for a while. Is it desired that the quired considerable proficiency at the case hands receive extra pay for stopping traffic, wrecking trains, "killing" engines and beating officers to death? It may business for a few years, has served two and beating officers to death? It may be denied by friends of the order that no official position in the firm, but is em the Knights were engaged in these pieces of deviltry, but the fact that News-Herald Company. the other day, proves conclusively that him by it. He is twenty six feet tailgled in a crowd that hooted and jeered until it was fired upon. The deputysheriffs have received much condemnation and their conduct may have been rash, but that does not alter the fact compositor who set this up was heard to that, had not the strikers been where they had no business, no volley would have been fired.

The reason the strikers did not go to view, was that they could not return in a body. Hoxie and Gould refused to In this connection it might be well to men discharge the men then at work to make to come for the strikers. What makes the Knights so indignant is, that the rail-catching non de phone of "Tramp Printer," And why, verily, has not Gould as much right to boycott the Knights as they have to boycott him or any other capitalist. Mr. Whitely, at Springfield, boycotted all the Knights in his employ becotted all the Knights in his employ before they had an opportunity to boycott him. In the mania for striking that raged recently, the Champion hands would probably have struck, had not Whitely saved them the trouble. The ancient proverb about "sauce" as goose-

If the President marries Miss Folsom, Rose Elizabeth will cease to be the first lady of the land, and Elizabeth Cady Stanton will have all her advising on the subject of low-necked dresses to do over again. By the by a correspondent of a leading fashion journal leads us to infer that the lady of the White House is not responsible for the prevailing extremes in that line. The writer suggests that Eve furnished the model for the present low-necked dress.

The idea that a man must leave an office or position for no other reason than that he has held it a long time is all besh. We do not mean to aver that long service gives him prestige over any other applicant, but fitness should determine everything. If he is capable and energetic he has a right to hold it a life-time, or longer if he should apply. True, under our Democratic theory of government, the people have a right to examine his work and remove or reap-point him at stated intervals, but his conduct should solely determine their

The Hillsboro correspondent of the Leesburg Buckeye displays a gross ignorance of the condition of our Infirmary or else the mean inhumanity of a miser. In his letter in the last issue of that paper he suggests that the county finances are at present in such a condition that no improvement should be made at the Infirmary. The cost of the new building cannot embarrass the county in any way, and it is not in the Building Fund that the expenditures so much exceed the receipts. Retrenchment is imperative, but let it come where it is Perhaps if the gentleman would visit the poor house and investigate the subject properly he would not raise such a senseless objection against the work which the Commissioners have taken in hand.

#### Dittey's Logic.

Judge Dittey in "an able original editorial" in last week's Gazette, makes the following original argument:

"There are twenty-five non-resident pupils attending the Hillsboro High School, while as many more have applied that could not be accommodated, and there are forty pupils of our own in attendance. Therefore Hillsboro's Schools are a decade behind that of sur-
